Re: EXPRESSION OF INTEREST: COMMITMENT TO HOST AND SUPPORT LEARNERS

Dear Sir/Madam

This letter serves to commit Sajonisi Youth Radio that we will be able to host learners for work placement and provide mentorship that will enhance their skills development within the media sector especially in the (radio/television) industry.

The workplace experience and mentorship will be provided for learners in the following learnerships:

- Film and Television Production NQF Level 5
- Radio Productions NQF Level 5

We are confident that Sunrise Emandleni has the capacity to accommodate approximately 60 learners with our support. A good half of the 60 learners will focus on Film and Television and the other half on Radio Productions.

Learners will be exposed to relevant skills and experience at our disposal that respond to the needs of their qualifications as well as the market. Sajonisi youth Radio specialises in Radio Production and we will support Sunrise Emandleni which meets the requirements and expertise in film and television production and allow for experts and personnel to provide mentorship support in all the areas that their curriculum content delivers on from Film and Television at our facilities to Radio productions.

Learners will also be exposed to professional conduct, real life media experience and soft skills. Sajonisi Youth Radio has a team of experts and professionals that will also provide relevant and focused Mentorship to the learners.

We are excited to be part of this skills development intervention where we will have a unique opportunity to support the youth and equip unemployed learners with skills that will change their lives for better and change the media landscape in our country.

Yours faithfully,
Silanda Monwabisi
